(54) Title: METHOD OF TRANSMITTING IEEE 1394 DATA OVER A WIRELESS LINK AND APPARATUS IMPLEMENT-
ING THE METHOD

(57) Abstract: The invention relates to a method of transmitting data over a wireless link, comprising the insertion of the data into packets according to a format corresponding to at least certain layers of a first protocol for data transmission over a wireless network, as well as the use of these packets to form a frame in accordance with a second protocol for data transmission over a wireless network, different from the first protocol, and the transmission over the wireless network according to the second protocol. The invention also relates to the apparatus implementing the method.
